## **Long Term Supplemental Outreach Activities**

### **Interns**

During this period CET sponsored 10 interns from the following sources:

- 3 University of Cincinnati
- 5 Cincinnati State Technical Community College
- 1 Kent State University
- 1 Eastern Kentucky University

All of these interns were utilized in learning activities and mentoring within the Production Department.

### **Events with community groups interested in broadcast employment issues and/or Public Television**

Our Education Department Specialist served as a computer instructor for residents at Dupree House and served as an ambassador of the employment opportunities regarding the non-broadcast aspects public television. His instruction uses concepts and technologies that are being promoted by CET's Learning Services group in on-site training sessions and in-school trainings in this current period. He also provided informational presentations about how to receive and view CET programming in their apartments. This CET employee invested over 215 hours of his time in these endeavors during this reporting period

The CET Manager of Learning Services worked with students at Hughes STEM High School for 4 months during the Fall of 2015 to explore the capability of video communications. Using the PBS NewsHour Student Reporting Lab as a model, he assisted the students to interview many individuals, including the Mayor of Cincinnati. Along with his oversight, the students then shot video, recorded sound, and edited their material.

CET's Executive Producer served as a judge for the Cincinnati 48 Hour Film Festival that included a group of amateur and near-professional level filmmakers. The first prize winner has gone on to the national 48 Hour contest in Atlanta. This role for CET allowed us to get engaged with the local film community which could yield future opportunities for the CET production staff via engaging with the broader electronic media community.

The CET Events Manager along with a staff Producer addressed a group of 175 at the annual luncheon for the Cincinnati Association for the Blind and Visually impaired regarding the use of extensive volunteers in our organization and how volunteering engenders a diversity of both people and the skills they possess.

Through the efforts of our Educational Services and Production Departments, CET has conducted 11 tours of the station for a diversity of local groups such as Cub Scouts, Middle School students, University Media students, Symphony devotees, adult groups living in senior residency communities, and individuals who were in the U.S. Dept. of State's International Visitor Leadership Program. These tours last from 30 to 60 minutes and are structured to demonstrate and create awareness of the diversity of employment opportunities that exist at the station both inside and outside of the broadcast aspect as well as explaining about the wide variety of content and community interactions public television offers.

### **Training Programs**

Development of internal training efforts designed to enable station personnel to acquire skills that could lead them to qualify for higher level positions within the station. This has occurred in the Production, Education Services, and Development departments through special or additional assignments, external seminar training, and one-on-one coaching by both junior and senior managers.

### **Scholarship Programs**

Our station supports the scholarship program sponsored by the Ohio Association of Broadcasters by posting the availability of such a program, offering assistance to individuals in completing the application process, and by discussing the scholarship opportunities with those interested in pursuing broadcast careers.
